About the Filipina Leadership Summit

Filipina Women's Network's annual Filipina Leadership Summit is the leading national forum of its kind. Filipina professionals - decision makers in leading industries - gather to learn the latest developments for multicultural professionals in the U.S. workplace and make the connections that will advance their businesses and professional careers.

Thriving in Turbulent Times

Filipina women are resilient. We are constantly growing, transforming, innovating, and changing as we secure our place in the world.

The Filipina Summit's theme for 2009 was deliberately chosen to signal the contributions that Filipina women can make to the world at a time when many institutions and social systems are broken. Our goal is to bring together a diversity of professionals who are committed to enhancing our bi-cultural strengths and to discuss groundbreaking solutions to the inherent intercultural issues that exist. We face many challenges at both the national and global level.

Many of the challenges are rooted in cultural values and beliefs that drive how we respond to issues, issues that need thoughtful solutions. We feel a sense of urgency to come together, explore how we can help move societies and organizations toward resolution and, where needed, reconciliation.

There are conflicts mired in years of cultural misunderstanding and mistrust. There are long standing inequities that beg for attention. There are political divisions and economic pressures that need resolution.

Filipina Action Now will move us closer to Pinay Power 2012.
